

Elmeg Quality, Health&Safety, Environment and Energy management system Policy

Quality, Health & Safety, Environment and Energy encompass all processes, departments, and people in Elmeg.

We innovate every day our know-how in automotive technology and plastic materials transformation in order to be a reference partner into an always evolving automotive industry. We offer cutting-edge solutions in technical plastic materials blowmoulding and thermoforming for the biggest players of automotive industry

At the base of these purposes we put:

- the protection of the health, safety and well-being of people in the workplace, also along the supply chain;
 - compliance with regulations and laws for safety at work, health care, and environmental protection;
 - minimization of our environmental impact, working to reduce waste, prevent pollution and conserve natural resources, throughout the entire product lifecycle;
 - improvement of energy efficiency and greenhouse gas emissions reduction;
 - the continuous improvement of the EMS in order to improve our environmental performance;
 - the proactively satisfaction of the internal and external stakeholders expectations;
- the safety, reliability and high performances of the products and services offered, in compliance with current regulations and the most advanced national and international standards, ensuring the continuous alignment of company processes with the Quality Management System standard requirements (ISO 9001 and IATF 16949 -car manufacturing sector);
 - the identification, prevention and management of the different types of risks and opportunities in company processes and along the entire value chain;
 - the promotion of our corporate culture towards the Stakeholders through constant and targeted dialogue, communication, motivation and training, always guided by our Code of Conduct and our corporate values;
 - Failure prevention which takes precedence over error correction, right from the beginning to provide products with 'Zero Defect';
 - a safe information and data management system always alligned with customer expectations.

ELMEG Quality, H&S, Environment and Energy standards are implemented by monitoring the quantitative and qualitative objectives in a continuous improvement perspective through digitisation of company processes to improve their efficiency. Elmeg's Top Management is strongly committed in the full implementation of this Policy and provide all the necessary resources in order to achieve company's targets.
